

Strike Yachts Strike 37 Walkaround

TWO YEARS AFTER THE 37 WALKAROUND HIT THE drawing board, Strike has completed the tooling. The 37 features a 13-foot beam, 60-degree entry, 23-degree deadrise and a 33-inch draft. The soft, dry and stable ride makes this a highly competitive blue-water fishing vessel.

The Strike 37 Walkaround already has exceeded the company's high expectations. The 37 qualifies as an excellent hard-core fishing machine with the comforts of a family cruiser. It demonstrates the customary attention to detail and fishing knowledge behind every Strike design.

"We had three main goals when designing this model," says Kenny Willmer, president of Strike Yachts, Inc. "First was to have a single-level walkaround with no clumsy steps to fall up or down and plenty of width all the way around the cabin.

"Second we wanted enough gunwale height around the walkway so that people can feel comfortable while

underway." And the third goal was "to offer a spacious cabin with a stand-up head, shower, galley, sofa, TV and sleeping accommodations for up to five."

Specifications

L.O.A.	39 ft.
BEAM	13 ft.
DEADRISE	23 deg.
DRAFT	2 ft. 9 in.
FUEL	350 gal.
STD. POWER	425-hp electronic diesels
MSRP	\$385,000

NOTABLE FEATURES:

- Sleeping accommodations for up to five
- Safe and comfortable gunwale height
- 40-plus knots top-end speed
- 60-degree entry
- Single-level walkaround design

Strike recently completed and delivered the first 37 Walkaround and has begun production on eight new orders. All Strikes are semicustom and sold factory direct, allowing customers to outfit the boat to meet their needs. Strike Yachts, Inc., is confident that its new 37 Walkaround is like no other on the market.
